

**Cost effective asset  
tracking solution.**

**Smartie** is a patented asset tag that combines NFC (Near Field Communication) and BLE (Bluetooth Low Energy) technology that can be monitored and tracked with the SmartStores App.

Smartie tags enable you to effectively manage and control your assets and tools.

Smartie tags are attached to both fixed and portable assets such as tools, pallets etc.

Find your lost assets and tools with Smartie tags.

When you scan a Smartie tag, using NFC, it records the assets position in a map in Sourcerer, our cloud based software, allowing you to know its last location.

If an asset or tool is lost, it can be tracked using the SmartStores App.

When you are in the vicinity of the asset the SmartStores App can be used to locate the asset or tool up to 80 metres away using the Bluetooth network of the phone.

## Benefits

- Increased control and accountability.
- 24/7 visibility of assets in Sourcerer.
- Smartie tags enable businesses to reduce costs associated with loss and theft of assets.
- Simple and effective tracking of assets, saving time and cost.
- Operatives can check via the SmartStores App that all their assets are present and correct on their van after doing a job, ensuring they have all their tools for the next job.
- If an asset is lost, it can be tracked via the last known location within the map.
- Smartie tag is particularly useful if you have multiple quantities of the same tool type.

## Features of Smartie

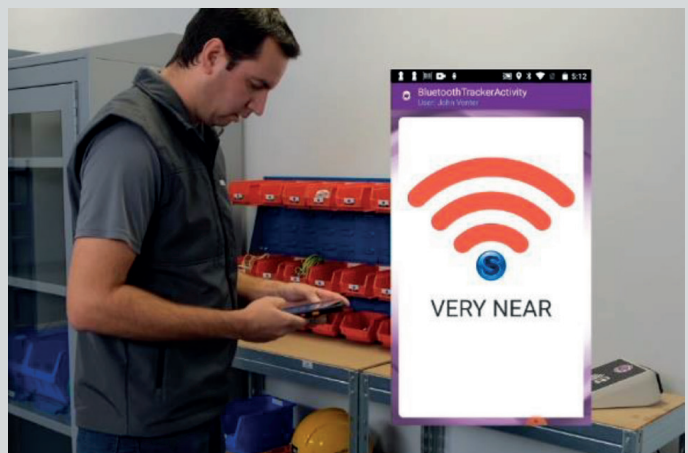

- Mobile low touch NFC and Bluetooth solution which is simple to set up and easy to use.
- Cold. Warm. Warmer. Hot – Visual indicator for helping to find assets.
- Assets can be located up to 80 metres away via Bluetooth.
- Smartie tags can measure temperature.
- Real-time mobile notifications for asset management.
- Long life battery – Up to 5 years

## Why Choose Smartie

Smartie tags are designed to simplify asset tracking, reducing search and find time.

The Smartie tag and SmartStores App combined provides a low-cost asset tracking solution.

Ensures you have all your assets and tools which helps to improve your first fix rate and increases the number of jobs you can complete on time.
