iVendScale+

Empowering Inventory Control Through Patented Scale-Based Vending

iVendScale+ utilises **advanced weight sensor technology,** facilitating a reduction in consumption of up to 40%

It is an easy-to-use multi-item vending solution, giving you full control and compliance on MRO, PPE and critical spares.

Requires workers to scan their cards before taking items so you have a record of who took it, where it was used, and when it was returned. Reduce inventory hoarding and overuse, while analysing usage to maximise inventory availability.

Benefits of iVendScale+

Full accountability
Automatically monitors what is taken by each employee which drives a reduction in consumption of up to 40%.

Control
Limits access to authorised employees.

Compliance
Ensures employees are using the correct products with a full audit trail in Sourcerer cloud based software.

Reduces stockouts
Items are automatically reordered on the appropriate supplier when stocks fall below their replenishment levels. Ensures you always have the right item, in the right place at the right time.

Reduces walk around time
Solutions can be strategically placed at Point Of Use to reduce time taken to obtain products.

Job number management
Can enforce job/works number entry prior to access providing automatic charge capture for budgetary purposes.

Ease of use
Quick access to multiple products per vend whilst retaining full accountability.

Flexibility
Can manage large items as well as small items in the same solution.

Feature Rich Scale-Based Vending Machine

- Access with a card or PIN number.
- Ability to lock users out by door.
- Job/works number entered via touchscreen.
- Configured to meet demand and scope of supply.

- Anti-tipping feature.
- Cloud-based, linked to our Sourcerer software platform.
- Option for ethernet, Wi-Fi or 3/4G.
- Runs off a standard 110/230v power supply.
- Manual key access in the event of power failure.

Why Choose iVendScale+?

Users can access products quickly and easily without the need to manually log or update inventory.

The iVendScale+ reduces consumption, through access control and employee accountability.

Automated replenishment through Sourcerer ensures the right products are at point of use when required. This saves walk and wait time, which leads to an improvement in productivity.
